## **DETAILED ACTION**

### **Allowable Subject Matter**

1. Claims 9-11 (renumbered as 1-3 respectively), 12-15 (renumbered as 5-8 respectively) and 16 (renumbered as 4) are allowed.

The following is the examiner's statement of reasons for allowance: The prior art fails to teach or suggest the new limitations to independent claims 9, 12, 14, and 15 with the reasons set forth in the applicant's amendments filed on June 26, 2007, pages 6-13. The rejection of claims 9-16 has been withdrawn.

The following is the examiner's statement of reasons for allowance: Prior art does not teach or suggest directly or indirectly the limitation "when the movement state is a low-speed state, the first control process shortens a low-speed reception period as the reception state degrades, when the movement state is a high-speed state, the second control process shortens a high-speed reception period as the reception state degrades, and when the reception state is constant, the high-speed reception period is shorter than the low-speed reception period" in combination with other limitations of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
